INDEPENDENT AUDITOR'S REPORT

To the Board of Directors and Management of
Intermediate District No. 287
Plymouth, Minnesota

REPORT ON THE FINANCIAL STATEMENTS

We have audited the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Intermediate District No. 287 (the District) as of and for the year ended June 30, 2014, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

MANAGEMENT'S RESPONSIBILITY FOR THE FINANCIAL STATEMENTS

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

AUDITOR'S RESPONSIBILITY

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

(continued)

OPINIONS

In our opinion, the financial statements referred to on the previous page present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the District as of June 30, 2014, and the respective changes in financial position and, where applicable, cash flows thereof, and the budgetary comparison for the General Fund for the year then ended, in accordance with accounting principles generally accepted in the United States of America.

OTHER MATTERS

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis and the required supplementary information, as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The introductory section, supplemental information, and other district information, as listed in the table of contents, are presented for purposes of additional analysis and are not required parts of the basic financial statements. The accompanying Schedule of Expenditures of Federal Awards is presented for purposes of additional analysis as required by the U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and is also not a required part of the basic financial statements of the District. The accompanying Uniform Financial Accounting and Reporting Standards (UFARS) Compliance Table is presented for purposes of additional analysis as required by the Minnesota Department of Education, and is also not a required part of the basic financial statements of the District.

The supplemental information, the Schedule of Expenditures of Federal Awards, and the UFARS Compliance Table are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory and other district information sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

(continued)

Prior Year Comparative Information

We have previously audited the District's 2013 financial statements, and we expressed unmodified audit opinions on the respective financial statements of the governmental activities, each major fund, and the aggregate remaining fund information in our report dated December 12, 2013. In our opinion, the partial comparative information presented herein as of and for the year ended June 30, 2013 is consistent, in all material respects, with the audited financial statements from which it has been derived.

OTHER REPORTING REQUIRED BY *GOVERNMENT AUDITING STANDARDS*

In accordance with *Government Auditing Standards*, we have also issued our report dated December 11, 2014 on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, grant agreements, and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

INTERMEDIATE DISTRICT NO. 287

Management's Discussion and Analysis Year Ended June 30, 2014

This section of Intermediate District No. 287's (the District) annual financial statements presents Management's Discussion and Analysis (MD&A) of the District's financial performance during the fiscal year ended June 30, 2014. We encourage readers to consider the financial information presented here in conjunction with the other components of the District's annual financial statements.

OVERVIEW OF THE FINANCIAL STATEMENTS

The financial section of the annual financial statements consists of the following parts:

- Independent Auditor's Report;
- Management's Discussion and Analysis;
- Basic financial statements, including the government-wide financial statements, fund financial statements, and the notes to basic financial statements;
- Required supplementary information;
- Combining and individual fund statements and schedules, presented as supplemental information; and
- Other district information.

The following explains the two types of statements included in the basic financial statements:

GOVERNMENT-WIDE FINANCIAL STATEMENTS

The government-wide financial statements (Statement of Net Position and Statement of Activities) report information about the District as a whole using accounting methods similar to those used by private sector companies. The Statement of Net Position includes *all* of the District's assets, deferred outflows of resources (if any), liabilities, and deferred inflows of resources (if any). All of the current year's revenues and expenses are accounted for in the Statement of Activities regardless of when cash is received or paid.

The two government-wide financial statements report the District's *net position* and how it has changed. Net position—the difference between the District's assets, deferred outflows of resources (if any), liabilities, and deferred inflows of resources (if any)—is one way to measure the District's financial health or *position*.

- Over time, increases or decreases in the District's net position are indicators of whether its financial position is improving or deteriorating, respectively.
- To assess the overall health of the District requires consideration of additional nonfinancial factors such as changes in member district usage and the condition of school buildings and other facilities.

In the government-wide financial statements, the District's activities are all shown in one category titled "governmental activities." These activities, including career and technical education, academic education, special education, student clubs, and administrative support services, are primarily financed with tuition, membership fees, access fees, and operating grants.

FUND FINANCIAL STATEMENTS

The fund financial statements provide more detailed information about the District's *funds*, focusing on its most significant or "major" funds, rather than the District as a whole. Funds (Food Service Special Revenue, Community Service Special Revenue, and Debt Service Fund) that do not meet the threshold to be classified as major funds are called "nonmajor" funds. Detailed financial information for nonmajor funds can be found in the supplemental information section.

Funds are accounting devices the District uses to keep track of specific sources of funding and spending on particular programs.

- Some funds are required by state law and by bond covenants.
- The District may establish other funds to control and manage money for particular purposes.

The District maintains the following kinds of funds:

Governmental Funds – The District's basic services are included in governmental funds, which generally focus on: 1) how *cash and other financial assets* that can readily be converted to cash flow in and out, and 2) the balances left at year-end that are available for spending. Consequently, the governmental fund statements provide a detailed *short-term* view that helps to determine whether there are more or less financial resources that can be spent in the near future to finance the District's programs. As this information does not encompass the additional long-term focus of the government-wide financial statements, we provide additional information (reconciliation schedules) immediately following the governmental fund statements that explains the relationship (or differences) between these two types of financial statement presentations.

Proprietary Funds – The District maintains one type of proprietary fund. The Internal Service Fund is used as an accounting device to accumulate and allocate costs internally among the District's various functions. The District uses its Internal Service Fund to account for its dental self-insurance activities. These services have been included within governmental activities in the government-wide financial statements.

Fiduciary Funds – The District is the trustee, or fiduciary, for assets that belong to other organizations. The District is responsible for ensuring that the assets reported in these funds are used only for their intended purposes and by those to whom the assets belong. All of the District's fiduciary activities are reported in a separate Statement of Fiduciary Net Position and a Statement of Changes in Fiduciary Net Position. We excluded these activities from the government-wide financial statements because the District cannot use these assets to finance its operations.

FINANCIAL ANALYSIS OF THE DISTRICT AS A WHOLE

Table 1 is a summarized view of the District's Statement of Net Position:

	<u>2014</u>	<u>2013</u>
Assets		
Current and other assets	\$ 22,813,573	\$ 31,496,902
Restricted assets	3,745,412	2,452,486
Capital assets, net of accumulated depreciation	<u>77,132,474</u>	<u>79,701,970</u>
Total assets	<u>\$ 103,691,459</u>	<u>\$ 113,651,358</u>
Liabilities		
Current and other liabilities	\$ 9,283,704	\$ 18,375,634
Long-term liabilities, including due within one year	<u>83,780,044</u>	<u>83,661,338</u>
Total liabilities	<u>\$ 93,063,748</u>	<u>\$ 102,036,972</u>
Net position		
Net investment in capital assets	\$ 3,568,822	\$ 4,052,663
Restricted	4,312,985	3,025,901
Unrestricted	<u>2,745,904</u>	<u>4,535,822</u>
Total net position	<u>\$ 10,627,711</u>	<u>\$ 11,614,386</u>

The District's financial position is the product of many factors. For example, the determination of the District's net investment in capital assets involves many assumptions and estimates, such as current and accumulated depreciation amounts. A conservative versus liberal approach to depreciation estimates, as well as capitalization policies, may produce a significant difference in the calculated amounts.

The District's total net position decreased by \$986,675 during the year ended June 30, 2014. The net investment in capital assets decreased by \$483,841, mainly due to an increase in depreciation. Restricted net position increased by \$1,287,084, mainly due to an increase in the amount restricted for debt service. The unrestricted portion of net position decreased \$1,789,918 in the current year. The decrease in unrestricted net position was due to the use of assigned fund balance to make capital improvements and an increase in current year severance benefits payable.

The increase in restricted assets is the result of payments to the sinking fund which will be used to pay a portion of the North Education Center's (NEC) outstanding debt.

The decrease in current assets and current liabilities relates to the District paying outstanding aid anticipation certificates totaling \$9,900,000.

Table 2 presents a condensed version of the Change in Net Position of the District:

	2014	2013
Revenue		
Program revenues		
Charges for services	\$ 23,543,538	\$ 24,693,241
Operating grants and contributions	53,222,921	49,209,282
General revenues		
General grants and aids	5,118,720	5,101,862

Special education	49,225,704	46,711,262
Student clubs	34,837	29,161
Administrative support services and operations and maintenance	16,507,110	15,030,687
Food service	671,461	590,030
Community service	181,463	221,269
Interest and fiscal charges on debt	3,901,822	4,044,542
Total expenses	83,561,967	78,008,750
Change in net position	\$ (986,675)	\$ 1,556,050

This statement is presented on an accrual basis of accounting, and it includes all of the governmental activities of the District. This statement includes depreciation expense, but excludes capital asset purchase costs, debt proceeds, and the repayment of debt principal.

The District's total revenues were \$82,575,292 for the year ended June 30, 2014. Charges for services account for 28.5 percent of total revenues for the year while operating grants and contributions accounted for 64.5 percent. General grants and aids accounted for 6.2 percent of the total revenue and are mainly from pass-through levies for debt service and the federal reimbursement received for interest payments made on the Build America Bonds.

The total cost of all programs and services was \$83,561,967, which is higher than fiscal 2013 by \$5,553,217. The District experienced increases in academic and special education expenses, mainly due to depreciation expense from the completion of district construction projects and severance expense related to an updated actuarial study which reflected increases for changes to medical cost trends.

Figures A and B show further analysis of these revenue sources and expense functions:

Figure A – Sources of Revenues for Fiscal Years 2014 and 2013

The largest share of the District’s revenue results from services to member and nonmember school districts that normally result in tuition charges and service fees. Special education tuition billing has been processed through the Minnesota Department of Education (MDE) since 2009. The MDE adjusts aid payments, taking them from districts served by the District and paying the District directly. Because these dollars flow through the state, they are classified as an operating grant rather than a charge for services.

The above graphs show the stability in funding sources between the two years due to the District’s continuous work with the MDE and member districts to establish greater predictability, timeliness, and stability in revenues by improving processes and communication.

Figure B – Expenses for Fiscal Years 2014 and 2013

The District's expenses are predominately in categories that correlate directly to providing instruction, which includes: special education, academic education, and career and technical education, comprising 74.5 percent of the total. Total expenses for the year in administrative support services and operations and maintenance were 19.8 percent, which include administrative, business and instructional support services, building operations and maintenance, and tuition refunds. An additional 4.7 percent reflects debt service expenses related to financing of facilities.

Table 3 presents the net cost of governmental activities by functional activity of the District:

	2014		2013	
	Total Cost of Services	Net (Expenses Over) Revenues From Services	Total Cost of Services	Net (Expenses Over) Revenues From Services
Governmental activities				
Career and technical education	\$ 1,764,840	\$ (272,993)	\$ 1,545,389	\$ (94,164)
Academic education	11,274,730	(1,347,078)	9,836,410	(553,848)
Special education	49,225,704	(1,236,451)	46,711,262	(457,596)

FINANCIAL ANALYSIS OF THE DISTRICT'S FUNDS

The financial performance of the District as a whole is also reflected in its governmental funds. Table 4 shows the change in total fund balances of each of the District's governmental funds:

	2014	2013	Increase (Decrease)
Major funds			
General	\$ 13,643,384	\$ 13,288,874	\$ 354,510
Nonmajor funds			
Debt Service Fund	3,774,686	2,520,724	1,253,962
Total governmental funds	\$ 17,418,070	\$ 15,809,598	\$ 1,608,472

The Board of Director’s fund balance policy states: “To ensure the financial strength and stability of the District, the Board of Directors will endeavor to maintain an unassigned fund balance of at least 6 to 8 percent of the District’s General Fund operating budget, excluding operating capital programs.”

The District transferred an amount to an assigned fund balance for severance to continue to fund future severance obligations. The District also has an assigned fund balance for MDE special education state aid tuition appeals, of which \$650,000 remains. This is in recognition of the potential for additional calculation changes in this area by the MDE.

Analysis of the General Fund

Table 5 presents a summary of General Fund revenues:

	2014	2013	Amount of Increase (Decrease)
Local sources			
Pass-through levies	\$ 2,800,789	\$ 2,974,288	\$ (173,499)
Tuition	19,448,574	18,994,895	453,679
Investment earnings	12,964	16,186	(3,222)
Other	4,680,374	4,415,033	265,341
State sources	49,297,310	46,793,472	2,503,838
Federal sources	654,280	667,828	(13,548)
 Total General Fund revenues	 <u>\$ 76,894,291</u>	 <u>\$ 73,861,702</u>	 <u>\$ 3,032,589</u>

The District received approximately \$2.8 million in property taxes that were levied for by their member districts. The pass-through levies are authorized in Minnesota Statutes to cover the District’s lease costs, safe schools initiatives, and health and safety programs. The increase in tuition revenue was primarily due to additional medical assistance and transportation revenues received. State sources increased \$2.5 million, due to the second year of the NEC Building and having additional special education students served in higher need areas.

Table 6 presents a summary of General Fund expenditures:

	2014	2013	Amount of Increase (Decrease)
Salaries	\$ 45,689,827	\$ 43,530,343	\$ 2,159,484
Employee benefits	16,490,367	15,228,459	1,261,908
Purchased services	8,346,601	8,651,943	(305,342)
Supplies and materials	1,329,483	1,176,428	153,055
Capital expenditures	1,934,469	2,239,945	(305,476)
Other expenditures	322,642	1,023,195	(700,553)
Debt service	2,046,089	2,336,167	(290,078)
Total General Fund expenditures	\$ 76,159,478	\$ 74,186,480	\$ 1,972,998

The increase in expenditures of \$1,972,998 from the prior year is mainly due to an average wage increase of 3 percent and increases in hiring related to increased needs in educational programs. Employee benefit increases relate to the increases in overall salaries and significant increases in health insurance costs for benefits provided to employees.

Table 7 shows the General Fund unassigned fund balance as compared to expenditures:

	2010	2011	2012	2013	2014
Unreserved – unassigned fund balance	\$ 3,778,052	\$ 4,757,797	\$ 6,187,960	\$ 6,310,491	\$ 6,393,048
Unassigned fund balance as a percentage of noncapital related expenditures	5.5%	6.7%	7.8%	8.5%	8.4%

Unassigned fund balance as a percentage of noncapital related expenditures is one key measurement of a district's financial health. The unassigned fund balance of \$6,393,048 at June 30, 2014 represents 8.4 percent of annual expenditures. The District continues to monitor its fund balances closely. The Board of Director's policy sets a goal of at least 6 to 8 percent for the unassigned fund balance as a percentage of noncapital related expenditures.

General Fund Budgetary Highlights

Table 8 summarizes the General Fund budget to actual comparison:

Table 8 General Fund Budget					
	<u>Original Budget</u>	<u>Final Budget</u>	<u>Actual</u>	<u>Over (Under) Final Budget</u>	
				<u>Amount</u>	<u>Percent</u>
Revenue and other financing sources	<u>\$ 77,136,490</u>	<u>\$ 77,591,662</u>	<u>\$ 76,913,693</u>	<u>\$ (677,969)</u>	<u>(0.9%)</u>
Expenditures and other financing uses	<u>\$ 78,377,547</u>	<u>\$ 78,955,021</u>	<u>\$ 76,559,183</u>	<u>\$ (2,395,838)</u>	<u>(3.0%)</u>

The District is required to adopt an operating budget prior to the beginning of its fiscal year, referred to above as the original budget. During the year, the District might amend that budget for known changes in circumstances such as enrollment levels, grant funding, and employee contract settlements.

An intermediate school district's revenues are generated based on offsetting expenditures. Therefore, when actual expenditures are less than budgeted projections, revenues will also be less than budgeted. Revenues in the special education area were lower than budget as special education revenues are a reimbursement of special education expenditures that are due to lower than budgeted severance and health insurance costs. Also, due to realized savings in administration and operations expenditures and lower than anticipated expenditures in capital expenditures, overall expenditures in the General Fund concluded the year below budget.

CAPITAL ASSETS AND LONG-TERM LIABILITIES

Capital Assets

Table 9 shows the District's capital assets, together with changes from the previous year. The table also shows total depreciation expense for fiscal years ending June 30, 2014 and 2013:

	<u>2014</u>	<u>2013</u>	<u>Net Change</u>
Land	\$ 10,865,963	\$ 10,865,963	\$ -
Buildings	75,712,723	75,032,677	680,046
Equipment	3,783,678	3,637,287	146,391
Construction in progress	-	4,372	(4,372)
Less accumulated depreciation	<u>(13,229,890)</u>	<u>(9,838,329)</u>	<u>(3,391,561)</u>
Total	<u>\$ 77,132,474</u>	<u>\$ 79,701,970</u>	<u>\$ (2,569,496)</u>
Depreciation expense	<u>\$ 3,578,716</u>	<u>\$ 1,797,361</u>	<u>\$ 1,781,355</u>

The significant increase in depreciation expense is due to the completion of the NEC construction project.

Long-Term Liabilities

Additional details of the District's capital assets and long-term debt activity can be found in the notes to basic financial statements.

FACTORS BEARING ON THE DISTRICT'S FUTURE

The District is dependent on selling services to independent school districts throughout the state of Minnesota for its revenue. The majority of this revenue is generated through services provided to the member independent school districts of the District. For the past few years, legislated revenue increases to these members for providing educational services have not been sufficient to meet instructional program needs and increased costs due to inflation. The District continuously endeavors to control costs, as demonstrated by the current fiscal year's financial statements, and also meet the needs of its member districts by providing specialized programs for their students.

One member district withdrew its membership as of June 30, 2011. Independent School District (ISD) No. 271 and the District continue to work with the Commissioner of Education to determine ISD No. 271's proportionate share of the District's assets and liabilities, if any.

Reconciliation of the Statement of
Revenue, Expenditures, and Changes in Fund Balances
to the Statement of Activities
Governmental Funds
Year Ended June 30, 2014

(With Partial Comparative Information for the Year Ended June 30, 2013)

	<u>2014</u>	<u>2013</u>
Total net change in fund balances – governmental funds	\$ 1,608,472	\$ (193,966)
Amounts reported for governmental activities in the Statement of Activities are different because:		
Capital outlays are recorded as net position and the cost is allocated over their estimated useful lives as depreciation expense. However, fund balances are reduced for the full cost of capital outlays at the time of purchase.		
Capital outlays	1,019,386	1,843,751
Depreciation expense	(3,578,716)	(1,797,361)
Repayment of long-term debt principal does not affect the change in net position. However, it reduces fund balances.		
Capital lease payable	743,126	935,629
Certificates of participation payable	1,320,000	1,295,000
Interest on long-term debt is included in the change in net position as it accrues, regardless of when payment is due. However, it is included in the change in fund balances when due.		
	23,052	23,389
A gain or loss on the disposal of capital assets, including the difference between the carrying value and any related sale proceeds, is included in the change in net position. However, only the sale proceeds are included in the change in fund balances.		
	(10,166)	(6,137)
The Internal Service Fund is used by management to charge the costs of certain activities to individual funds. The change in net position of the Internal Service Fund is included in the governmental activities in the Statement of Activities.		
	70,003	91,980
Debt issuance premiums and discounts are included in the change in net position as they are amortized over the life of the debt. However, they are included in the change in fund balances upon issuance as other financing sources and uses or interest and fiscal charges.		
	22,529	11,276
Certain expenses are included in the change in net position, but do not require the use of current funds, and are not included in the change in fund balances.		
Severance benefits payable	(1,712,349)	(70,496)
Compensated absences payable	(64,323)	(42,706)
Net other post-employment benefit obligation	(418,343)	(523,909)

INTERMEDIATE DISTRICT NO. 287

Notes to Basic Financial Statements
June 30, 2014

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Organization

The financial statements of Intermediate District No. 287 (the District) have been prepared in conformity with accounting principles generally accepted in the United States of America as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard setting body for establishing governmental accounting and financial reporting principles.

The District is an instrumentality of the state of Minnesota established to function as an educational institution. The District's Board of Directors is responsible for legislative and fiscal control of the District. A superintendent is appointed by the Board of Directors and is responsible for administrative control of the District.

B. Reporting Entity

The District's financial statements include all funds, departments, agencies, boards, commissions, and other component units for which the District is considered to be financially accountable.

Component units are legally separate entities for which the District (primary government) is financially accountable, or for which the exclusion of the component unit would render the financial statements of the primary government misleading. The criteria used to determine if the primary government is financially accountable for a component unit includes whether or not the primary government appoints the voting majority of the potential component unit's governing body, is able to impose its will on the potential component unit, is in a relationship of financial benefit or burden with the potential component unit, or is fiscally depended upon by the potential component unit. Based on these criteria, there are no organizations considered to be component units of the District.

Extracurricular student activities are determined primarily by student participants under the guidance of an adult and are generally conducted outside of school hours. In accordance with Minnesota Statutes, district school boards can elect to either control or not control extracurricular activities. The District's Board of Directors has elected to exercise control over extracurricular activities; therefore, the extracurricular student activity accounts are included in the District's General Fund.

C. Government-Wide Financial Statement Presentation

The government-wide financial statements (Statement of Net Position and Statement of Activities) display information about the reporting government as a whole. These statements include all the financial activities of the District, except for the fiduciary funds. The fiduciary funds are only reported at the fund financial statement level. Generally, the effect of material interfund activity has been removed from the government-wide financial statements.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

The Statement of Activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Certain indirect costs have been included as part of the program expenses reported for the various functional activities. Program revenues include charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Other internally directed revenues are reported as general revenues.

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Grants and similar items are recognized when all eligibility requirements imposed by the provider have been met.

The District applies restricted resources first when an expense is incurred for which both restricted and unrestricted resources are available. Depreciation expense is included as a direct expense in the functional areas that utilize the related capital assets. Interest on debt is considered an indirect expense and is reported separately on the Statement of Activities.

D. Fund Financial Statement Presentation

Separate fund financial statements are provided for governmental, proprietary, and fiduciary funds. Major individual governmental funds are reported as separate columns in the fund financial statements. Aggregated information for the remaining nonmajor governmental funds is reported in a single column in the fund financial statements. The proprietary fund (Internal Service Fund) is presented in the proprietary fund financial statements. Because the principal users of the internal services are the District's governmental activities, the financial statement of the proprietary fund (Internal Service Fund) is consolidated into the governmental activities in the government-wide financial statements. The cost of these services is reported in the appropriate functional activity. Fiduciary funds are presented in the fiduciary fund financial statements by type. Since, by definition, fiduciary fund assets are being held for the benefit of a third party and cannot be used for activities or obligations of the District, these funds are excluded from the government-wide financial statements.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenue of the District's Internal Service Fund is charges to employees for insurance. Operating expenses for the internal service funds include the cost of services. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses. The District's only proprietary fund is the Internal Service Fund, which provides services to the governmental funds.

Governmental funds financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this basis of accounting transactions are recorded in the following manner:

- 1. Revenue Recognition** – Revenue is recognized when it becomes measurable and available. “Measurable” means the amount of the transaction can be determined and “available” means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. State revenue is recognized in the year to which it applies according to Minnesota Statutes and accounting principles generally accepted in the United States of America. Federal revenue is recorded in the year in which the related expenditure is made. Grants and similar items are recognized when all eligibility requirements imposed by the provider have been met. Other revenue is considered available if collected within 60 days after year-end. Proceeds of long-term debt and acquisitions under capital leases are reported as other financing sources.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

- 2. Recording of Expenditures** – Expenditures are generally recorded when a liability is incurred, except for principal and interest on long-term debt and other long-term liabilities, which are recognized as expenditures to the extent they have matured. Capital asset acquisitions are reported as expenditures in governmental funds. In the General Fund, capital outlay expenditures are included within the applicable functional areas.

Proprietary and fiduciary fund financial statements are reported using the economic resources measurement focus and use the accrual basis of accounting as described earlier in these notes. The agency funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations.

Description of Funds

The existence of the various district funds has been established by the Minnesota Department of Education (MDE). Each fund is accounted for as an independent entity. A description of the funds included in this report is as follows:

Major Governmental Funds

General Fund – The General Fund is used to account for all financial resources except those required to be accounted for in another fund. The District has included in the General Fund subdivisions to account for revenue and expenditures for career and technical education, academic education, special education, district-wide (including administrative support services and operations and maintenance), severance and property, and student clubs.

Nonmajor Governmental Funds

Food Service Special Revenue Fund – The Food Service Special Revenue Fund is used primarily to record financial activities of the District’s child nutrition program.

Community Service Special Revenue Fund – The Community Service Special Revenue Fund is used to account for services in the areas of recreation, civic activities, nonpublic pupils, adult or early childhood programs, or other similar services.

Debt Service Fund – The Debt Service Fund is used to account for the accumulation of resources for, and payment of, debt principal, interest, and related costs.

Proprietary Fund

Internal Service Fund – The Internal Service Fund is used to account for and finance the uninsured risk of loss of the District’s employee dental plan.

Fiduciary Fund

Employee Benefit Trust Fund – The Employee Benefit Trust Fund is used to administer resources received and held by the District as the trustee for others. The Employee Benefit Trust Fund includes the District’s flexible benefit plan (Internal Revenue Code § 125 Cafeteria Plan).

Scholarship Private-Purpose Trust Fund – The Scholarship Private-Purpose Trust Fund is used to account for resources held in trust to be used by various other third parties to award scholarships to students.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Agency Funds – Agency funds are established to account for cash and other assets held by the District as an agent for others. These funds are used to account for the transactions of the District’s capital lease escrows for the South Education Construction Projects and Edgewood Building Projects.

E. Budgeting

Each June, the Board of Directors adopts an annual budget for the following fiscal year for the General Fund, Food Service Special Revenue Fund, Community Service Special Revenue Fund, and Debt Service Fund. The budget for each fund is prepared on the same basis of accounting as the financial statements. Legal budgetary control is at the fund level. Budgeted appropriations lapse at year-end. Expenditures exceeded budgeted amounts in the Food Service Special Revenue Fund by \$16,022 and the Community Service Special Revenue Fund by \$11,015.

F. Cash and Investments

Cash and temporary investments include balances from all funds that are combined and invested to the extent available in various securities as authorized by state law. Earnings from the pooled investments are allocated to the respective funds on the basis of applicable cash balance participation by each fund.

Cash and investments held by trustee include balances held in segregated accounts that are established for specific purposes. In the Debt Service Fund, the cash is restricted for debt payments. Interest earned on these investments was allocated directly to those accounts.

Investments are generally stated at fair value, except for investments in 2a7-like external investment pools, which are stated at amortized cost. Short-term, highly liquid debt instruments (including commercial paper, bankers’ acceptance, and U.S. treasury and agency obligations) purchased with a remaining maturity of one year or less are also reported at amortized cost. Investment income is accrued at the Balance Sheet date.

G. Receivables

All receivables are shown net of any allowance for uncollectibles; however, no allowance has been recorded. The District believes all receivables are fully collectible within one year.

H. Inventories

Inventories are valued at the lower of cost (first-in, first-out method) or market. Inventories are recorded as expenditures when items are used or sold.

I. Prepaid Items

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items. Prepaid items are recorded as expenditures/expenses at the time of consumption.

J. Capital Assets

Capital assets are capitalized at historical cost or estimated historical cost for purchased or constructed assets. Donated assets are recorded as capital assets at their estimated fair market value at the date of donation. The District maintains a threshold level of \$5,000 or more for capitalizing capital assets. The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Capital assets are recorded in the government-wide financial statements, but are not reported in the fund financial statements. Capital assets are depreciated using the straight-line method over their estimated useful lives. Since surplus assets are sold for an immaterial amount when declared as no longer needed for public school purposes by the District, no salvage value is taken into consideration for depreciation purposes. Useful lives vary, ranging from 20 to 50 years for buildings, and 4 to 15 years for equipment.

Capital assets not being depreciated include land and construction in progress.

The District does not possess any material amounts of infrastructure capital assets, such as sidewalks or parking lots. Such items are considered to be part of the cost of buildings or other improvable property.

K. Unearned Revenue

Unearned revenue consists of tuition for fiscal 2015 online learning classes collected with spring registration, gifts and grants for the fiscal 2015 school year, and balances remaining in student lunch accounts.

L. Long-Term Obligations

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities. Bond premiums and discounts are deferred and amortized over the life of the bonds using the straight-line method.

In the fund financial statements, governmental fund types recognize bond premiums and discounts during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses.

M. Compensated Absences Payable

- 1. Vacation Pay** – Employees are entitled to vacation based on length of employment, portions of which may be carried over to future years. Employees are reimbursed for any unused, accrued vacation and related benefits upon termination. Vacation pay is accrued when earned or incurred in the government-wide financial statements. Unused vacation pay is accrued in governmental fund financial statements only when it has matured due to employee termination or similar circumstances.
- 2. Sick Pay** – Substantially all district employees are entitled to sick leave at various rates. Unused sick leave enters into the calculation of early retirement incentive and convertible sick leave payments for some employees upon termination.

N. Severance Benefits

The District provides lump sum severance or retirement pay to eligible employees in accordance with provisions in certain collectively bargained contracts.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Members of certain employee groups within the District, including teachers, may become eligible to receive lump sum severance or retirement pay benefits. Eligibility for these benefits is based on years of service and/or minimum age requirements. The amount of the severance or retirement benefit is calculated by converting a portion of unused accumulated sick leave. No employee can receive severance or retirement benefits that exceed one year’s salary. Members of certain employee groups may also elect to receive district matching contributions paid into a tax-deferred matching contribution plan. The amount of any severance or retirement benefit due an individual is reduced by the total matching contributions made by the District to such a plan over the course of that individual’s employment.

Severance or retirement benefits are required to be paid out over a 21-month period following the effective date of retirement. Retirement benefits for eligible teachers are paid into a post-employment healthcare savings plan, administered by the Minnesota State Retirement System. For other employees, severance benefits are paid into a pay deferral plan or healthcare savings plan as directed by the individual retirees. Severance is recorded as a liability in the government-wide financial statements as it is earned and it becomes probable that it will vest at some point in the future. Severance or retirement pay is accrued in the governmental fund financial statements only when it becomes due and payable.

O. Tuition Billings

The District’s policy is to recognize tuition revenue in the fiscal year that corresponds with the fiscal year in which the educational services are rendered to resident districts. Therefore, tuition revenue for the year ended June 30, 2014 represents services performed during the 2013–2014 fiscal year.

Special education, career and technical education, and academic tuition billings are based on a determination of the general education, categorical aids, prior legislative formulas for cooperation revenue, and any other pertinent levy dollars as provided by legislation to each student’s resident local school district.

P. Risk Management

1. **General Insurance** – The District is exposed to various risks of loss related to torts: theft of, damage to, and destruction of assets; errors and omissions; natural disasters; and workers’ compensation for which the District carries commercial insurance. Settled claims have not exceeded this commercial coverage in any of the past three fiscal years. There were no significant reductions in the District’s insurance coverage in fiscal 2014.
2. **Self-Insurance** – The District has an Internal Service Fund to account for and finance its uninsured risk of loss for an employee dental plan. The Internal Service Fund is funded by the District, employee contributions, and interest income (if any). The claims liability of \$8,775 reported in the Internal Service Fund at June 30, 2014 is based on the requirement that a liability for claims be reported if information prior to the issuance of the financial statements indicates that it is probable that a liability has been incurred at the date of the financial statements and the loss can be reasonably estimated. Changes in the Internal Service Fund’s claim liability were:

	Beginning of Fiscal Year Liability	Current Year Claims and Changes in Estimates	Claim Payments	Balance at Fiscal Year-End
June 30, 2013	\$ 9,176	\$ 462,734	\$ 467,143	\$ 4,767
June 30, 2014	\$ 4,767	\$ 507,212	\$ 503,204	\$ 8,775

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Q. Statement of Cash Flows

For purposes of the Statement of Cash Flows, the District considers all highly liquid debt instruments with an original maturity from time of purchase by the District of three months or less to be cash equivalents. The proprietary fund's equity in the government-wide cash and investment management pool is considered to be cash equivalent.

R. Restricted Assets

Restricted assets are cash and cash equivalents and the related interest receivable whose use is limited by legal requirements such as a bond indenture. Restricted assets are reported only in the government-wide financial statements. In the fund financial statements these assets have been reported as "cash and investments held by trustee" while the interest receivable is included within accounts and interest receivable.

S. Use of Estimates

The preparation of financial statements, in conformity with accounting principles generally accepted in the United States of America, requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenue and expenditures/expenses during the reporting period. Actual results could differ from those estimates.

T. Net Position

In the government-wide and proprietary fund financial statements, net position represents the difference between assets, liabilities, and deferred inflow of resources. Net position is displayed in three components:

- **Net Investment in Capital Assets** – Consists of capital assets, net of accumulated depreciation, reduced by any outstanding debt attributable to acquire capital assets.
- **Restricted Net Position** – Consists of net position restricted when there are limitations imposed on their use through external restrictions imposed by creditors, grantors, or laws or regulations of other governments.
- **Unrestricted Net Position** – All other net position that does not meet the definition of "restricted" or "net investment in capital assets."

U. Fund Balance Classifications

In the fund financial statements, governmental funds report fund balance in classifications that disclose constraints for which amounts in those funds can be spent. These classifications are as follows:

- **Nonspendable** – Consists of amounts that are not in spendable form, such as prepaid items, inventory, and other long-term assets.
- **Restricted** – Consists of amounts related to externally imposed constraints established by creditors, grantors, or contributors; or constraints imposed by state statutory provisions.
- **Committed** – Consists of internally imposed constraints that are established by resolution of the Board of Directors. Those committed amounts cannot be used for any other purpose unless the Board of Directors removes or changes the specified use by taking the same type of action it employed to previously commit those amounts.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

- **Assigned** – Consists of internally imposed constraints. These constraints consist of amounts intended to be used by the District for specific purposes but do not meet the criteria to be classified as restricted or committed. In governmental funds, assigned amounts represent intended uses established by the governing body itself or by an official to which the governing body delegates the authority. Pursuant to Board of Directors policy, the District’s Director of Finance is authorized to establish assignments of fund balance.
- **Unassigned** – The residual classification for the General Fund, which also reflects negative residual amounts in other funds.

When both restricted and unrestricted resources are available for use, it is the District’s policy to first use restricted resources, then use unrestricted resources as they are needed.

When committed, assigned, or unassigned resources are available for use, it is the District’s policy to use resources in the following order: 1) committed, 2) assigned, and 3) unassigned.

V. Prior Period Comparative Financial Information/Reclassification

The basic financial statements include certain prior year partial comparative information in total but not at the level of detail required for a presentation in conformity with accounting principles generally accepted in the United States of America. Accordingly, such information should be read in conjunction with the District’s financial statements for the year ended June 30, 2013, from which the summarized information was derived. Also, certain amounts presented in the prior year data have been reclassified in order to be consistent with the current year’s presentation.

NOTE 2 – DEPOSITS AND INVESTMENTS

A. Deposits

In accordance with applicable Minnesota Statutes, the District maintains deposits at depository banks authorized by the Board of Directors.

The following is considered the most significant risk associated with deposits:

Custodial Credit Risk – In the case of deposits, this is the risk that in the event of a bank failure, the District’s deposits may be lost.

Minnesota Statutes require that all deposits be protected by federal deposit insurance, corporate surety bond, or collateral. The market value of collateral pledged must equal 110 percent of the deposits not covered by federal deposit insurance or corporate surety bonds. Authorized collateral includes treasury bills, notes, and bonds; issues of U.S. government agencies; general obligations rated “A” or better; revenue obligations rated “AA” or better; irrevocable standard letters of credit issued by the Federal Home Loan Bank; and certificates of deposit. Minnesota Statutes require that securities pledged as collateral be held in safekeeping in a restricted account at the Federal Reserve Bank or in an account at a trust department of a commercial bank or other financial institution that is not owned or controlled by the financial institution furnishing the collateral.

The District’s deposit policies do not further limit depository choices.

NOTE 2 – DEPOSITS AND INVESTMENTS (CONTINUED)

At year-end, the carrying amount of the District's deposits was \$8,509,121 while the balance on the bank records was \$8,509,121. At June 30, 2014, all deposits were insured or collateralized by securities held by the District's agent in the District's name.

B. Cash on Hand

Cash in the possession of the District, consisting of petty cash and change funds, totaled \$480 at year-end.

C. Investments

Investments are subject to various risks, the following of which are considered the most significant:

Custodial Credit Risk – For investments, this is the risk that in the event of a failure of the counterparty to an investment transaction (typically a broker-dealer) the District would not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. Although the District's investment policies do not directly address custodial credit risk, it typically limits its exposure by purchasing insured or registered investments, or by the control of who holds the securities.

Credit Risk – This is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. Minnesota Statutes limit the District's investments to direct obligations or obligations guaranteed by the United States or its agencies; shares of investment companies registered under the Federal Investment Company Act of 1940 that receive the highest credit rating, are rated in one of the two highest rating categories by a statistical rating agency, and all of the investments have a final maturity of 13 months or less; general obligations rated "A" or better; revenue obligations rated "AA" or better; general obligations of the Minnesota Housing Finance Agency rated "A" or better; bankers' acceptances of United States banks eligible for purchase by the Federal Reserve System; commercial paper issued by United States corporations or their Canadian subsidiaries, rated of the highest quality category by at least two nationally recognized rating agencies, and maturing in 270 days or less; Guaranteed Investment Contracts guaranteed by a United States commercial bank, domestic branch of a foreign bank, or a United States insurance company, and with a credit quality in one of the top two highest categories; repurchase or reverse purchase agreements and securities lending agreements with financial institutions qualified as a "depository" by the government entity, with banks that are members of the Federal Reserve System with capitalization exceeding \$10,000,000; that are a primary reporting dealer in U.S. government securities to the Federal Reserve Bank of New York; or certain Minnesota securities broker-dealers. The District's investment policies do not further restrict investing in specific financial instruments.

Interest Rate Risk – This is the risk of potential variability in the fair value of fixed rate investments resulting from changes in interest rates (the longer the period for which an interest rate is fixed, the greater the risk). The District's investment policies do not limit the maturities of investments; however, when purchasing investments the District considers such things as interest rates and cash flow needs.

Concentration Risk – This is the risk associated with investing a significant portion of the District's investments (considered 5 percent or more) in the securities of a single issuer, excluding U.S. guaranteed investments (such as treasuries), investment pools, and mutual funds. The District's investment policies do not address concentration risk. At June 30, 2014, the District's investments portfolio includes the following percentages of specific issuers:

Repurchase agreement	
Citigroup Global Markets	52.0%

NOTE 2 – DEPOSITS AND INVESTMENTS (CONTINUED)

This asset is being held by a trustee as required in the debt issuance documents for the certificates of participation issued by the District. This asset will be used to pay future debt service.

D. Summary Information

The following table presents the District's deposit and investment balances at June 30, 2014, and information relating to potential investment risks:

Investment Type	Credit Risk		Interest	Carrying Value
	Credit Rating	Rating Agency	Rate Risk Maturity Date	
Repurchase agreement				
Citigroup Global Markets	N/A	N/A	> 10 years	\$ 3,745,386

Deposits				8,509,121
Cash on hand				<u>480</u>
Total cash and investments				<u><u>\$ 15,711,722</u></u>

N/A – Not Applicable

The underlying security for the repurchase agreement is a guaranteed investment contract rated AAA by S&P. The Minnesota School District Liquid Asset Fund (MSDLAF) is regulated by Minnesota Statutes and is an external investment pool not registered with the Securities Exchange Commission (SEC) that follows the same regulatory rules of the SEC under rule 2a7. The District's investment in MSDLAF is measured at the net asset value per share provided by the pool, which is based on an amortized cost method that approximates fair value.

Cash and investments are included on the basic financial statements as follows:

Cash and temporary investments – Statement of Net Position	\$ 11,747,106
Restricted assets – cash and investments for debt service – Statement of Net Position	3,745,412
Cash and investments – Statement of Fiduciary Net Position

B. Descriptions of Long-Term Liabilities

1. Capital Leases Payable – The following capital leases are outstanding as of June 30, 2014:

Issue	Issue Date	Interest Rate	Original Issue	Final Maturity	Principal Outstanding
Capital leases payable					
North Vector	02/15/2005	5.37%	\$ 96,000	01/15/2025	\$ 64,600
South Education Center – construction	10/10/2006	5.30%	\$ 25,400,000	11/01/2032	23,647,956
Total capital leases payable					<u>\$ 23,712,556</u>

The assets acquired through the capital leases have been recorded in capital assets within building and equipment costs of \$25,496,000. The building and equipment costs are depreciated using the straight-line method over the life of the leases. The lease obligations will be repaid through the General Fund. Certain future pass-through levies of the member districts have been pledged for the payment of these capital leases.

2. Certificates of Participation (COP) Payable – The following certificates of participation are outstanding as of June 30, 2014:

Issue	Issue Date	Interest Rate	Original Issue	Final Maturity	Principal Outstanding
Certificates of participation payable

Total certificates of participation payable					<u>\$ 49,800,000</u>

NOTE 5 – LONG-TERM LIABILITIES (CONTINUED)

The certificates of participation will be repaid by the Debt Service Fund. The District’s 2010B Certificates of Participation were issued as Build America Bonds – Direct Pay, and the District’s 2010E Certificates of Participation were issued as Qualified School Construction Bonds – Direct Pay for which the District will receive federal tax credits toward the interest payments on these debt issues. Certain future pass through levies of the member districts have been pledged for the payment of these certificates. A portion of the District’s annual payments are being held in an escrow account that is being held for payment of future debt service.

3. **Severance Benefits Payable** – Severance benefits payable consist of early retirement incentive benefits payable to employees. Severance benefit liabilities are paid by the General Fund. Annual payments to retire the severance benefit liabilities have not been determined and will depend on actual employee turnover.

4. **Compensated Absences Payable** – Compensated absences payable represent accrued vacation payable at year-end. Compensated absences are paid by the General Fund. Annual payments to retire compensated absences payable have not been determined and will depend on employee turnover and actual employee absences.

C. Minimum Debt Payments

Minimum annual principal and interest payments required to retire capital leases payable and certificates of participation are as follows:

Year Ending June 30,	Capital Leases		Certificates of Participation	
	Principal	Interest	Principal	Interest
2015	\$ 782,998	\$ 1,245,398	\$ 1,360,000	\$ 2,599,106

B. Fund Balance Policy

The Board of Directors has formally adopted a fund balance policy regarding the unassigned fund balance for the General Fund. The policy establishes that the District will endeavor to maintain an unassigned fund balance of at least 6 to 8 percent of the District’s General Fund operating budget, excluding operating capital programs. At June 30, 2014, the unassigned fund balance of the General Fund was 8.4 percent of total current year expenditures.

NOTE 7 – OTHER POST-EMPLOYMENT BENEFITS (OPEB) PLAN

A. Plan Description

The District provides post-employment benefits to certain eligible employees through the District's Other Post-Employment Benefits (OPEB) Plan, a single-employer defined benefit plan administered by the District. There are 779 active plan participants and 30 retired plan participants. All post-employment benefits are based on contractual agreements with employee groups. Eligibility for these benefits is based on years of service and/or minimum age requirements. These contractual agreements do not include any specific contribution or funding requirements. The plan does not issue a publicly available financial report. These benefits are summarized as follows:

Post-Employment Insurance Benefits – All retirees of the District have the option under state law to continue their medical insurance coverage through the District from the time of retirement until the employee reaches the age of eligibility for Medicare. For members of certain employee groups, the District pays for all or part of the eligible retiree's premiums for medical and/or dental insurance from the time of retirement until the employee reaches the age of eligibility for Medicare. Benefits paid by the District differ by bargaining unit, with some contracts specifying a certain dollar amount per month, and some covering premium costs as defined within each collective bargaining agreement. Retirees not eligible for these district-paid premium benefits must pay the full district premium rate for their coverage.

The District is legally required to include any retirees for whom it provides health insurance coverage in the same insurance pool as its active employees, whether the premiums are paid by the District or the retiree. Consequently, participating retirees are considered to receive a secondary benefit known as an "implicit rate subsidy." This benefit relates to the assumption that the retiree is receiving a more favorable premium rate than they would otherwise be able to obtain if purchasing insurance on their own, due to being included in the same pool with the District's younger and statistically healthier active employees.

B. Funding Policy

The required contribution is based on projected pay-as-you-go financing requirements, with additional amounts to pre-fund benefits as determined periodically by the District. There is no invested plan assets accumulated for payment of future benefits.

NOTE 7 – OTHER POST-EMPLOYMENT BENEFITS (OPEB) PLAN (CONTINUED)

C. Annual OPEB Cost and Net OPEB Obligation

The District’s annual OPEB cost (expense) is calculated based on annual required contributions (ARC) of the District, an amount determined on an actuarially determined basis in accordance with the parameters of GASB Statement No. 45. The ARC represents a level funding that, if paid on an ongoing basis, is projected to cover normal costs each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed 30 years. The following table shows the components of the District’s annual OPEB cost for the year, the amount actually contributed to the plan, and the changes in the District’s net OPEB obligation to the plan:

ARC	\$ 989,929
Interest on net OPEB obligation	81,145
Adjustment to ARC	(117,315)
Annual OPEB cost (expense)	<u>953,759</u>
Contributions made	<u>535,416</u>
Increase in net OPEB obligation	418,343
Net OPEB – beginning of year	<u>2,028,620</u>
Net OPEB – end of year	<u><u>\$ 2,446,963</u></u>

The District’s annual OPEB cost, the percentage of annual OPEB cost contributed to the plan, and the net OPEB obligation for the past three years are as follows:

Fiscal Year Ended	Annual OPEB Cost	Employer Contribution	Percentage of Annual OPEB Cost Contributed	Net OPEB Obligation
June 30, 2012	\$ 1,087,216	\$ 542,977	49.9%	\$ 1,504,711
June 30, 2013	\$ 1,090,783	\$ 566,874	52.0%	\$ 2,028,620
June 30, 2014	\$ 953,759	\$ 535,416	56.1%	\$ 2,446,963

D. Funded Status and Funding Progress

As of July 1, 2013, the most recent actuarial valuation date, the plan was zero percent funded. The actuarial accrued liability for benefits was \$9,327,173, and the actuarial value of assets was \$0, resulting in an unfunded actuarial accrued liability (UAAL) of \$9,327,173. The covered payroll (annual payroll of active employees covered by the plan) was \$37,767,517, and the ratio of the UAAL to the covered payroll was 24.7 percent.

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the ARC of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The Schedule of Funding Progress immediately following the notes to basic financial statements presents multi-year trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

NOTE 7 – OTHER POST-EMPLOYMENT BENEFITS PLAN (OPEB) (CONTINUED)

E. Actuarial Methods and Assumptions

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and the plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

In the July 1, 2013 actuarial valuation, the projected unit credit actuarial cost method was used. The actuarial assumptions included: a 4.0 percent investment rate of return (net of administrative expenses) based on the District's own investments; an inflation rate of 3.0 percent; a 3.8 percent rate of projected salary increases; an annual healthcare cost trend rate of 8 percent initially, reduced by decrements to an ultimate rate of 5.0 percent after 6 years. The UAAL is being amortized on a level dollar basis over a 30-year open period.

NOTE 8 – PENSION BENEFITS PLAN

A. Plan Description

The District provides post-employment pension benefits to certain eligible employees through the District's Pension Benefits Plan, a single-employer defined benefit plan administered by the District. There are 70 active plan participants. All pension benefits are based on contractual agreements with employee groups. Eligibility for these benefits is based on years of service and/or minimum age requirements. These contractual agreements do not include any specific contribution or funding requirements. The plan does not issue a publicly available financial report. These benefits are summarized as follows:

The District offers pension benefits to several individuals and employee groups. Eligible employees (contracts stipulate a minimum number of years of service and a minimum age), can earn a lump sum pension benefit that differs by individual and bargaining unit. Some contracts also reduce the pension benefits by the total matching contribution made by the District to the employee's qualified retirement account over the course of that individual's employment with the District.

B. Funding Policy

The required contribution is based on projected pay-as-you-go financing requirements, with additional amounts to pre-fund benefits as determined periodically by the District. There is no invested plan assets accumulated for the payment of future benefits.

NOTE 8 – PENSION BENEFITS PLAN (CONTINUED)

C. Annual Pension Cost and Net Pension Obligation

The District’s annual pension cost (expense) is calculated based on ARC of the District, an amount determined on an actuarially determined basis in accordance with the parameters of GASB Statement Nos. 27 and 50. The ARC represents a level funding that, if paid on an ongoing basis, is projected to cover normal costs each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed 30 years. The following table shows the components of the District’s annual pension cost for the year, the amount actually contributed to the plan, and the changes in the District’s net pension obligation to the plan:

ARC	\$ 47,832
Interest on net pension obligation	7,631
Adjustment to ARC	(11,032)
Annual pension cost (expense)	<u>44,431</u>
Contributions made	<u>35,085</u>
Increase in net pension obligation	9,346
Net pension obligation – beginning of year	<u>190,778</u>
Net pension obligation – end of year	<u><u>\$ 200,124</u></u>

The District’s annual pension cost, the percentage of annual pension cost contributed to the plan, and the net pension obligation for the past three years are as follows:

Fiscal Year Ended	Annual Pension Cost	Employer Contribution	Percentage of Annual Pension Cost Contributed	Net Pension Obligation
June 30, 2012	\$ 40,789	\$ 45,844	112.4%	\$ 180,378
June 30, 2013	\$ 40,611	\$ 30,211	74.4%	\$ 190,778
June 30, 2014	\$ 44,431	\$ 35,085	79.0%	\$ 200,124

D. Funded Status and Funding Progress

As of July 1, 2013, the most recent actuarial valuation date, the plan was zero percent funded. The actuarial accrued liability for benefits was \$371,252, and the actuarial value of assets was \$0, resulting in a UAAL of \$371,252. The covered payroll (annual payroll of active employees covered by the plan) was \$37,767,517 and the ratio of the UAAL to the covered payroll was 1.0 percent.

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability occurrence of events far into the future. Examples include assumptions about future employment and mortality. Amounts determined regarding the funded status of the plan and the ARC of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The Schedule of Funding Progress immediately following the notes to basic financial statements presents multi-year trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

NOTE 9 – DEFINED BENEFIT PENSION PLANS – STATE-WIDE

Substantially all employees of the District are required by state law to belong to defined benefit, multi-employer, cost-sharing pension plans administered by the Teachers' Retirement Association (TRA) or Public Employees' Retirement Association (PERA), all of which are administered on a state-wide basis. Disclosures relating to these plans are as follows:

Teachers' Retirement Association (TRA)

A. Plan Description

All teachers employed by the District are covered by defined benefit plans administered by the TRA. TRA members belong to either the Coordinated or Basic Plan. Coordinated Plan members are covered by Social Security and Basic Plan members are not. All new members must participate in the Coordinated Plan. The plans are established and administered in accordance with Minnesota Statutes, Chapter 354 and 356.

The TRA provides retirement benefits as well as disability benefits to members, and benefits to survivors upon death of eligible members. Benefits are established by Minnesota Statute and vest after three years of service credit. The defined retirement benefits are based on a member's highest average salary for any five consecutive years of allowable service, age, and a formula multiplier based on years of credit at termination of service.

NOTE 9 – DEFINED BENEFIT PENSION PLANS – STATE-WIDE (CONTINUED)

Two methods are used to compute benefits for the TRA’s Coordinated and Basic Plan members. Members first employed before July 1, 1989 receive the greater of the Tier I or Tier II benefits as described:

Tier I

Step Rate Formula	Percentage per Year
Basic Plan	
First 10 years	2.2 percent
All years after	2.7 percent
Coordinated Plan	
First 10 years if service years are prior to July 1, 2006	1.2 percent
First 10 years if service years are July 1, 2006 or after	1.4 percent
All other years of service if service years are prior to July 1, 2006	1.7 percent
All other years of service if service years are July 1, 2006 or after	1.9 percent

With these provisions:

- Normal retirement age is 65 with less than 30 years of allowable service and age 62 with 30 or more years of allowable service.
- Three percent per year early retirement reduction factor for all years under normal retirement age.
- Unreduced benefits for early retirement under a Rule-of-90 (age plus allowable service equals 90 or more).

Tier II

For years of service prior to July 1, 2006, a level formula of 1.7 percent per year for Coordinated Plan members and 2.7 percent per year for Basic Plan members. For years of service July 1, 2006 and after, a level formula of 1.9 percent per year for Coordinated Plan members and 2.7 percent for Basic Plan members applies. Actuarially equivalent early retirement reduction factors with augmentation are used for early retirement before the normal age of 65. These reduction factors average approximately 4.0 to 5.4 percent per year.

Members first employed after June 30, 1989 receive only the Tier II calculation with a normal retirement age that is their retirement age for full Social Security retirement benefits, but not to exceed age 66.

Six different types of annuities are available to members upon retirement. The No Refund Life Plan is a lifetime annuity that ceases upon the death of the retiree—no survivor annuity is payable. A retiring member may also choose to provide survivor benefits to a designated beneficiary(ies) by selecting one of the five plans that have survivorship features. Vested members may also leave their contributions in the TRA Fund upon termination of service in order to qualify for a deferred annuity at retirement age. Any member terminating service is eligible for a refund of their employee contributions plus interest.

NOTE 9 – DEFINED BENEFIT PENSION PLANS – STATE-WIDE (CONTINUED)

The benefit provisions stated apply to active plan participants. Vested, terminated employees who are entitled to benefits but not receiving them are bound by the provisions in effect at the time they last terminated their public service.

The TRA publicly issues a comprehensive annual financial report presenting financial statements, supplemental information on funding levels, investment performance, and further information on benefits provisions. The report may be accessed at the TRA website at www.minnesotatra.org. Alternatively, a copy of the report may be obtained by writing the TRA at Teachers' Retirement Association, 60 Empire Drive, Suite 400, St. Paul, Minnesota 55103-4000 or by calling (651) 296-2409 or (800) 657-3669.

B. Funding Policy

Minnesota Statutes, Chapter 354 sets the rates for employee and employer contributions. These statutes are established and amended by the State Legislature. Coordinated and Basic Plan members are required to contribute 7.0 percent and 10.5 percent, respectively, of their annual covered salary during fiscal year 2014 as employee contributions. The TRA employer contribution rates are 7.0 percent for Coordinated Plan members and 11.0 percent for Basic Plan members during fiscal year 2014. Total covered payroll salaries for all TRA members state-wide during the fiscal years June 30, 2013, 2012, and 2011, were approximately \$3.92 billion, \$3.87 billion, and \$3.84 billion, respectively.

The District's contributions for the years ended June 30, 2014, 2013, and 2012 were \$1,879,344, \$1,573,050, and \$1,558,506, respectively, equal to the contractually required contributions for each year as set by state statutes.

The 2010 Legislature approved employee and employer contribution rate increases to be phased-in over a four-year period beginning July 1, 2011. Employee and employer contribution rates increased by 0.5 percent on July 1 of each year of the four-year period, ending in 2014. Beginning July 1, 2014, TRA Coordinated Plan employee and employer contribution rates will each be 7.5 percent.

Public Employees' Retirement Association (PERA)

A. Plan Description

All non-teacher full-time and certain part-time employees of the District are covered by defined benefit plans administered by the PERA. The PERA administers the General Employees Retirement Fund (GERF), which is a cost-sharing, multiple-employer retirement plan. This plan is established and administered in accordance with Minnesota Statutes, Chapters 353 and 356.

GERF members belong to either the Coordinated Plan or the Basic Plan. Coordinated Plan members are covered by Social Security and Basic Plan members are not. All new members must participate in the Coordinated Plan.

The PERA provides retirement benefits as well as disability benefits to members, and benefits to survivors upon death of eligible members. Benefits are established by state statutes, and vest after five years of credited service. The defined retirement benefits are based on a member's highest average salary for any five successive years of allowable service, age, and years of credit at termination of service.

NOTE 9 – DEFINED BENEFIT PENSION PLANS – STATE-WIDE (CONTINUED)

Two methods are used to compute benefits for the PERA's Coordinated and Basic Plan members. The retiring member receives the higher of a step-rate benefit accrual formula (Method 1) or a level accrual formula (Method 2). Under Method 1, the annuity accrual rate for a Basic Plan member is 2.2 percent of average salary for each of the first 10 years of service and 2.7 percent for each remaining year. The annuity accrual rate for a Coordinated Plan member is 1.2 percent of average salary for each of the first 10 years and 1.7 percent for each remaining year. Under Method 2, the annuity accrual rate is 2.7 percent of average salary for Basic Plan members and 1.7 percent for Coordinated Plan members for each year of service. For all GERP members hired prior to July 1, 1989 whose annuity is calculated using Method 1, a full annuity is available when age plus years of service equal 90. Normal retirement age is 65 for Basic and Coordinated members hired prior to July 1, 1989. Normal retirement age is the age for unreduced Social Security benefits capped at 66 for Coordinated members hired on or after July 1, 1989. A reduced retirement annuity is also available to eligible members seeking early retirement.

There are different types of annuities available to members upon retirement. A single-life annuity is a lifetime annuity that ceases upon the death of the retiree—no survivor annuity is payable. There are also various types of joint and survivor annuity options available which will be payable over joint lives. Members may also leave their contributions in the fund upon termination of public service in order to qualify for a deferred annuity at retirement age. Refunds of contributions are available at any time to members who leave public service, but before retirement benefits begin.

The benefit provisions stated in the previous paragraphs of this section are current provisions and apply to active plan participants.

The PERA issues a publicly available financial report that includes financial statements and required supplementary information for the GERP. That report may be obtained on the PERA website at www.mnpera.org; by writing to the PERA at 60 Empire Drive, Suite 200, St. Paul, Minnesota 55103-2088; or by calling (651) 296-7460 or (800) 652-9026.

B. Funding Policy

Minnesota Statutes, Chapter 353 sets the rates for employer and employee contributions. These statutes are established and amended by the State Legislature. The District makes annual contributions to the pension plans equal to the amount required by state statutes. The GERP Basic Plan members and Coordinated Plan members were required to contribute 9.1 percent and 6.25 percent, respectively, of their annual covered salary in fiscal 2014. In fiscal 2014, the District was required to contribute the following percentages of annual covered payroll: 11.78 percent for Basic Plan members and 7.25 percent for Coordinated Plan members.

The District's contributions to the GERP for the years ended June 30, 2014, 2013, and 2012 were \$1,216,197, \$1,128,323, and \$1,103,229, respectively, equal to the contractually required contributions for each year as set by state statutes.

Beginning January 1, 2015, Coordinated Plan contribution rates will increase for employees and employers to 6.50 percent and 7.50 percent, respectively.

NOTE 10 – FLEXIBLE BENEFIT PLAN

The District offers its employees a flexible benefit plan (cafeteria plan) (the Plan) created in accordance with Internal Revenue Code § 125. All employee groups of the District are eligible if and when the collective bargaining agreement or contract with their group allows eligibility. Eligible employees can elect to participate by contributing pre-tax dollars withheld from payroll checks to the Plan for healthcare and dependant care benefits.

Before the beginning of the Plan year, which is from July 1 to June 30, each participant designates a total amount of pre-tax dollars to be contributed to the Plan during the year. At June 30, the District is contingently liable for claims against the total amount of participants' annual contributions to the medical reimbursement portion of the Plan, whether or not such contributions have been made.

Payments of insurance premiums (health and dental) are made by the District directly to the designated insurance companies. These payments are made on a monthly basis and are accounted for in the General Fund.

Amounts withheld for medical reimbursement and dependant care are paid by the District and maintained by an outside administrator on a monthly basis. Payments are made by the outside administrator to participating employees upon submitting a request for reimbursement of eligible expenses incurred by the employee. The medical reimbursement and dependant care activity is included in the financial statements as an Employee Benefit Trust Fund.

All property of the Plan and income attributable to that property is solely the property of the District, subject to the claims of the District's general creditors. Participants' rights under the Plan are equal to those of general creditors of the District in an amount equal to eligible healthcare and dependant care expenses incurred by the participants. The District believes that it is unlikely that it will use the assets to satisfy claims of general creditors in the future.

NOTE 11 – OPERATING LEASES

The District is leasing equipment, buildings, and space in several locations. The District incurred costs of \$521,476 for operating leases during the year ended June 30, 2014. These leases are scheduled to expire on various dates through 2019. Many of the leases are negotiated on a yearly basis and payment commitments extend out one year. The following is a summary of minimum lease payment commitments for all operating leases:

Year Ending June 30,	Amount
2015	\$ 401,362
2016	350,858
2017	346,669
2018	324,270
2019	48,256
	<u>\$ 1,471,415</u>

NOTE 12 – INTERFUND TRANSFERS

A. Interfund Transfers

At June 30, 2014, the District's Food Service Special Revenue Fund and Community Service Special Revenue Fund received a transfer in of \$309,398 and \$90,307, respectively, from the General Fund. This transfer was made to fund current year operations in these funds.

B. Interfund Loans

At June 30, 2014, the District's Community Service Special Revenue Fund has an interfund payable to the General Fund of \$3,137. This loan was used to assist with cash flow needs.

NOTE 13 – COMMITMENTS AND CONTINGENCIES

A. Federal and State Revenue

Amounts received or receivable from federal and state agencies are subject to agency audit and adjustment. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of funds which may be disallowed by the agencies cannot be determined at this time although the District expects such amounts, if any, to be immaterial.

B. Legal Contingencies

The District has the usual and customary legal claims pending at year-end, mostly of a minor nature and/or covered by insurance. Although the outcomes of these claims are not presently determinable, the District believes that the resolution of these matters will not have a material adverse effect on its financial position.

C. Member District Withdrawal

Independent School District No. 271 (ISD No. 271) withdrew as a member of the District effective June 30, 2011. As a result of this withdrawal from the District, a distribution of assets and assignment of liabilities of the District to ISD No. 271 will be determined according to Minnesota Statute § 123A.24. As of June 30, 2014, this distribution of assets and assignment of liabilities is still in progress.

ISD No. 271 remains responsible for its share of liabilities incurred by the District according to Minnesota Statute § 123B.02. ISD No. 271 and the District may mutually agree, through a Board resolution by each, to terms and conditions of the distribution of assets and the assignment of liabilities.

If ISD No. 271 and the District cannot agree on the terms and conditions, the Commissioner of Education shall resolve the dispute by determining ISD No. 271's proportionate share of assets and liabilities based on ISD No. 271's enrollment, financial contribution, usage, or other factor or combination of factors determined appropriate by the Commissioner of Education. The assets, if any, must be disbursed to ISD No. 271 in a manner that minimizes financial disruption to the District.

D. State Tuition Billing Revenue

At June 30, 2014, the District reported a balance due from other governmental units of approximately \$4.5 million related to amounts receivable from the MDE for state aids from the state's special education tuition billing process.

NOTE 13 – COMMITMENTS AND CONTINGENCIES (CONTINUED)

Special education state aid revenue includes amounts related to tuition billings to other school districts for special education services which are computed using formulas derived by the MDE. Because of the timing of the MDE's calculations, these final aid amounts for fiscal 2014 have not been finalized. The amount of the receivable and revenue recorded for fiscal 2014 for state special education aid is calculated using preliminary information available to the District.

The District has reported a \$650,000 assigned fund balance for MDE appeal in the General Fund related to this receivable balance. This was reported to recognize the potential for additional calculation changes in this aid category by the MDE.

NOTE 14 – GASB STANDARDS ISSUED BUT NOT YET IMPLEMENTED

GASB Statement No. 68, *Accounting and Financial Reporting for Pensions—An Amendment of GASB Statement No. 27*, replaces the requirements of GASB Statement Nos. 27 and 50, as they relate to pensions that are provided through pension plans administered as trusts or equivalent arrangements that meet certain criteria (as described for GASB Statement No. 67). The primary objective of this statement is to improve accounting and financial reporting by state and local governments for pensions. It also improves information provided by state and local governmental employers about financial support for pensions that is provided by other entities. This statement establishes standards for measuring and recognizing liabilities, deferred outflows of resources, deferred inflows of resources, and expense/expenditures. In addition, this statement details the recognition and disclosure requirements for employers with liabilities (payables) to a defined benefit pension plan and for employers whose employees are provided with defined contribution pensions. This statement also addresses circumstances in which a nonemployer entity has a legal requirement to make contributions directly to a pension plan. This statement is effective for financial statements for fiscal years beginning after June 15, 2014.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER
FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS
BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN
ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the Board of Directors and Management of
Intermediate District No. 287
Plymouth, Minnesota

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Intermediate District No. 287 (the District) as of and for the year ended June 30, 2014, and the related notes to the financial statements, which collectively comprise the District's basic financial statements, and have issued our report thereon dated December 11, 2014.

INTERNAL CONTROL OVER FINANCIAL REPORTING

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the District's financial statements will not be prevented, or detected and corrected, on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

(continued)

COMPLIANCE AND OTHER MATTERS

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

PURPOSE OF THIS REPORT

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control and compliance. Accordingly, this report is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR
EACH MAJOR FEDERAL PROGRAM AND REPORT ON INTERNAL
CONTROL OVER COMPLIANCE REQUIRED BY OMB CIRCULAR A-133

To the Board of Directors and Management of
Intermediate District No. 287
Plymouth, Minnesota

REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM

We have audited Intermediate District No. 287's (the District) compliance with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) Circular A-133 *Compliance Supplement* that could have a direct and material effect on each of the District's major federal programs for the year ended June 30, 2014. The District's major federal programs are identified in the summary of auditor's results section of the accompanying Schedule of Findings and Questioned Costs.

MANAGEMENT'S RESPONSIBILITY

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal programs.

AUDITOR'S RESPONSIBILITY

Our responsibility is to express an opinion on compliance for each of the District's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the District's compliance.

(continued)

OPINION ON EACH MAJOR FEDERAL PROGRAM

In our opinion, the District complied, in all material respects, with the types of compliance requirements referred to on the previous page that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2014.

REPORT ON INTERNAL CONTROL OVER COMPLIANCE

Management of the District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to on the previous page. In planning and performing our audit of compliance, we considered the District's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies and, therefore, material weaknesses or significant deficiencies may exist that were not identified. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses.

PURPOSE OF THIS REPORT

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of OMB Circular A-133. Accordingly, this report is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT
ON MINNESOTA LEGAL COMPLIANCE

To the Board of Directors and Management of
Intermediate District No. 287
Plymouth, Minnesota

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Intermediate District No. 287 (the District) as of and for the year ended June 30, 2014, and the related notes to the financial statements, which collectively comprise the District's basic financial statements, and have issued our report thereon dated December 11, 2014.

The *Minnesota Legal Compliance Audit Guide for Political Subdivisions*, promulgated by the Office of the State Auditor pursuant to Minnesota Statute § 6.65, contains seven categories of compliance to be tested: contracting and bidding, deposits and investments, conflicts of interest, public indebtedness, claims and disbursements, miscellaneous provisions, and uniform financial accounting and reporting standards for school districts. Our audit included all of the listed categories.

In connection with our audit, nothing came to our attention that caused us to believe that the District failed to comply with the provisions of the *Minnesota Legal Compliance Audit Guide for Political Subdivisions*, except as described in the Schedule of Findings and Questioned Costs as items 2014-001 and 2014-002. However, our audit was not directed primarily toward obtaining knowledge of such noncompliance. Accordingly, had we performed additional procedures, other matters may have come to our attention regarding the District's noncompliance with the above referenced provisions.

The District's responses to the legal compliance findings identified in our audit have been included in the Schedule of Findings and Questioned Costs. The District's responses were not subject to the auditing procedures applied in our audit of the financial statements and, accordingly, we express no opinion on them.

The purpose of this report is solely to describe the scope of our testing of compliance and the results of that testing, and not to provide an opinion on compliance. Accordingly, this report is not suitable for any other purpose.

B. FINDINGS – FINANCIAL STATEMENT AUDIT

None.

**C. FINDINGS AND QUESTIONED COSTS – MAJOR FEDERAL AWARD PROGRAMS
AUDIT**

None.

D. FINDINGS – MINNESOTA LEGAL COMPLIANCE AUDIT

2014-001 CONTRACT PERFORMANCE AND PAYMENT BONDS

Criteria – Minnesota Statute § 574.26.

Condition – When contracting for construction services with a value exceeding \$100,000, the District is required to obtain performance and payment bonds from the contractor. For one such contract awarded during the year, the District did not receive performance or payment bonds from the contractor.

Questioned Costs – Not applicable.

Context – The one bid we tested was not in compliance. This is a current year finding.

Effect – The District's interests in this contract were not protected by performance or payment bonds.

Cause – This was an oversight by district personnel.

Recommendation – We recommend that the District obtain the required performance and payment bonds for all future contracts for construction services exceeding \$100,000.

Corrective Action Plan

Actions Planned – All bids awarded for construction will be reviewed by the purchasing manager to assure the required performance and payment bonds are received at the time the contract is executed.

Official Responsible – Director of Finance.

Planned Completion Date – June 30, 2015.

Disagreement With or Explanation of Finding – The District has no disagreement with the finding.

Plan to Monitor – The Director of Finance will review bid files to assure the planned controls are being followed and the required performance and payment bonds are obtained.

D. FINDINGS – MINNESOTA LEGAL COMPLIANCE AUDIT (CONTINUED)

2014-002 GROUP INSURANCE

Criteria – Minnesota Statute § 471.6161.

Condition – Any political subdivision that provides group insurance for 25 or more employees must comply with certain bidding requirements in contracting for or renewing said insurance.

Questioned Costs – Not applicable.

Context – The District was required to complete a request for proposal for health insurance in fiscal year 2014. This process was not completed. This is a current year finding.

Effect – The District may not have selected the lowest responsible bidder by not completing a request for proposal for health insurance in fiscal year 2014.

Cause – This was an oversight by district personnel.

Recommendation – We recommend that the District review its policies and procedures for group insurance request for proposals.

Corrective Action Plan

Actions Planned – All request for proposals will be reviewed by the Director of Finance to assure the required statutes are followed.

Official Responsible – Director of Finance.

Planned Completion Date – June 30, 2015.

Disagreement With or Explanation of Finding – The District has no disagreement with the finding.

Plan to Monitor – The Director of Finance will review request for proposals to assure the planned controls are being followed and the required Minnesota Statutes are followed.

E. SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS – MAJOR FEDERAL AWARD PROGRAMS AUDIT

No audit findings for the year ended June 30, 2013 were reported.
